Ahmed khaled Giad

UI/UX Designer

ahmeduiux206@gmail.com +201032505817 LinkedIn Portfolio

Summary

Product Designer designing web and mobile products across B2B and B2C. I enjoy simplifying complex problems through thoughtful UX, clean UI, and scalable design systems, creating intuitive experiences that work for both users and businesses.

Professional Experience

IRYSS, *Product Designer* 09/2025 – 07/2026
Milan, Italy

- Led the end-to-end design of IRYSS's CRM platform, simplifying lead management and sales workflows for teams managing brands, resellers, and influencers.
- Designed and optimized a scalable CRM platform serving over 50,000 customers, enabling sales teams to efficiently manage leads, track activities, and improve workflow performance.
- Designed the B2B marketplace experience, connecting brands and resellers in one platform and making product discovery, ordering, and store management easier.
- Built and scaled the product's design system, creating reusable components and patterns that improved consistency and made design and development faster across the platform.

PHIX, *Freelance UI/UX Designer* 05/2025 – 08/2025
singapore

- Led the design of the PHIX app across mobile, improving navigation and simplifying key user flows.
- Designed high-fidelity interfaces and interactive prototypes to validate ideas and communicate solutions with stakeholders.
- Collaborated with developers throughout implementation to ensure designs were translated accurately into the final product.

Nqsh Company, *UI/UX Designer* 07/2024 – 04/2025
Saudi Arabia

- Designed landing pages for businesses, helping present their offerings clearly and improve customer engagement.
